DOMESTIC AND FOREIGN PRICES TAKE A SHARP UPWARD TURN.

Sales Recorded-Depressing Day in New York Stocks-Great Activity in the Local Markets.

At New York, yesterday, money on call was 4614 per cent.; last loan, 6 per cent.; ruling rate, 10 per cent.; prime mercantile paper, 595% per cent.

Sterling exchange was weak, with actual business in bankers' bills at \$4.86\4@4.86\2 for demand and at \$4.81\204.82 for sixty days; posted rates, \$4.83% and \$4.87%; commercial bills, \$4.81\\@4.82.

Silver certificates were 591/26601/2c; bar silver was 58%c: Mexican dollars were 47%c. Bar silver, at London, went up 3-16d on heavy Chinese demand and closed firm at 27 3-16d per ounce.

At New York, yesterday, there were sales of silver certificates for 40,000 ounces on the Stock Exchange at sixty days, buyers' option, at prices ranging from 60c to 601/2c, and a sale of 5,000 ounces at 60c regular. The asking price for certificates has been 59%c for some time past. The sales were made by Zimmerman & Forshay, and L. Zimmerman, of that firm, said in explanation: "I attribute this demand to the account of silversmiths, whose needs in their trade are greater this fall than for many years past. There is also an active demand from China and India for minting purposes, which has caused an increase in the price. Silversmiths do not like to be short of silver in this season, and under these circumstances are providing for the contingency

of a future advance in price." A general disposition to liquidate in speculative holdings was manifest in the New York stock market yesterday. Early in the day some general strength was manifested. which was due, primarily, to the higher Union Consolidated quotations cabled from London, and which was aided by strength in special stocks; but the growing stiffness of money and the total absence of outside buying demand discouraged the bull element, and they were sellers of the list as the day advanced. The weakness of stocks was very well distributed, except for the collapse of Leather, and effected all departments of the list. The declines in the industrials and specialties are rather greater, because the committments for the long account in those stocks were larger. There was heavy selling throughout the railroad list, and a large number of prominent stocks in that department show net declines of a point or upward. In the specialties the average runs between 1 and 2 points for the leading stocks. An exception should be made of the iron and steel stocks, several of which offered good resistance to the decline, Steel and Wire and American Hoop were examoles. Attention was almost wholly centered in the money market outlook. The continuing demands on the New York banks are regarded as foreshadowing a still further decrease in the proportion of cash reserves in the next bank statement. The emphatic utterances by treasury officials against the policy of any further measures of relief by the government dissipated the hopes that were prevalent in Wall street. As the little risk is taken in stocking up with dry banks have lost already to the subtreasury something like \$3,000,000 since last Friday, the attitude of the trade is important. Shipments by the New York banks to their interior correspondents are reported to be on as large a scale as last week. New vegetables before the cardening tendency in York exchange on Chicago fell again to 10c discount, compared with 10c premium at the opening of the week. The continued

progressive decline in the proportion of reserve to liability, precludes the hope of relief from that source. The recuperation shown by the Bank of France in its weekly statement relieves the apprehension of an immediate rise in that institution's rate of discount, but this is a small palliation of the general hardening tendency of the world's money markets. The closing of the stock market was easy and near the low price of the day for most stocks. An incident of the day was the demand for silver certificates at a sharp advance. with stocks. Total sales, at par value, were \$2,530,000. United States old fours advanced

expansion in the interior need for money

and the absorption by the treasury by

means of the surplus in the revenues is

met by the calling in of loans placed in the

stock market on stock collateral. There

was a sharp fall in sterling exchange yesterday, partly due to the firmer local money

market and partly to an increased supply

of cotton bills, which are now coming for-

ward in larger volume. But the weekly

Fine Fall Weather and Easy Money Market Give Snap to Trade. The oldest merchants on the wholesale streets say they never have known all conditions to be so favorable to an active trade as at present, and the volume of business demonstrates that the retail merchants are awake to the situation and are profiting by the activity in business. Prices carry so strong and steady a tone that goods, groceries, or, in fact, any articles which come into daily consumption. In prices yesterday there were no important changes. People are laying in their winter apples, potatoes and other prices becomes a distinct advance. The egg and poultry markets rule strong at prices quoted. The flour and provision markets rule easy, but not quotably lower. Receipts of hogs are large and prices are easing off. This, in turn, weakens prices on all hog products to some extent. The seed merchants are enjoying an active trade, with prices steady. Coal dealers report their daily on the increase, and prices on all kinds of coal are very firm. The local grain market is dull, receipts being

light. Track bids yesterday ruled as follows, as reported by the secretary of the Board of Trade: Wheat-No. 2 red, 67c; No. 3 red, 63@66c; November, 67c; wagon wheat, 67c. THE PASSING OF GODKIN.

Deserved Tribute to His Brilliant Literary Power. Washington Post.

Recent changes and redistributions in the

journalistic and literary world, have reness two of the most eminent, or at least the most conspicuous, Mugwumps in our midst. Mr. E. I. Godkin has relinquished the editorial control of the New York Evening Post and Mr. Henry Loomis Nelson has vacated the tripod of Harper's Weekly. It seems that Mr. Godkin retires permanently from journalistic work. The Evening Post gives out the statement that I is decision was fixed in any event, and that he withdraws now instead of waiting for the close of the year because his health detransactions for South Africa reported on manded that expedition of his plans. His retirement will be a distinct loss to New York journalism-a loss which it can ill afford to meet-for he was a notable example of learning qualified by grace of diction, and of ability which commanded applause whether or not it called for sympathy and confidence. For our part, we shall regret, and, no doubt, deplore, the retirement of a pen so luminous and so deightful. The press will lose an ornament. and Mugwumpery a pillar upon which it \$4.15@4.30. THE INDIANAPOLIS JOUR-NAL can give you the publicity for a proper presentation of what you have for sale, and then you must make the profit after the customers are in your place of business. We will bring you the buyers, you must do the rest. Tell the public-the buying public—the kind of public that reads the JOURNALwhere you are, what you have to sell and something about your prices, and then there is no question about doing a satisfactory business...

A telephone call to No. 238 will bring one of our men to consult with you about advertising. It is no trouble
